

S.E.A.T PROJECT

Come to see, hear, read about what these students have done to raise awareness about an orphanage in The Philippines. See their painted SEATs on display & the gifts that will be travelling across the ocean with them!

The students of Coreen School Blacktown have been exploring an innovative project called S.E.A.T.

Engaged in lessons of social enterprise & philanthropy, they have discovered that they can make a difference.

The result? The decorated bamboo SEATs will be sent to an orphanage in The Philippines. The butterfly effect in action!
